No. 33

Didsbury Gains Prominent Place in Alberta Fairs.

One hears with a certain amount of pleasure that very favorable comment has been made by outsiders on the exhibition held by the Didsbury Agricultural Society on August 3rd. Whilst this but confirms local opinion, it must nevertheless be distinctly encouraging to officials and members to know that their efforts have won this favor.

Our local Society has now been in existence 24 years, and when one recalls the fate that has overtaken so many organizations of a like nature within the province of Alberta, the Didsbury Society is to be congratulated not only on having reached its present stage, but also on having officials with the stamina and necessary determination to "see the thing through."

In addition to livestock and other exhibits this year several of our local business men were enterprising enough to establish a stand or display merchandise on the grounds.

A. G. Studer provided the hungry with biscuits and the weary with a cup of tea—and there were many weary. As becoming, too, to the House of Cecil, and its nearness to the throne, the Empress Brand of jams was given a prominence which tradition informs us it has enjoyed

ever since royalty went into the business.

J. V. Berscht had a bell-top tent advertising the well-known quality of the "Headlight" overall, for which they are the local agents.

W. G. Liesemer, of the local hardware store, had on the grounds in charge of experienced men an I.H.C. power binder, McCormick 15-30 engine, and other machinery of peculiar interest to farmers.

Two booths, one run by Cressman Bros. and the other by the Tuxis Boys did a big business in ice cream, etc., the broiling sun being a willing co-worker in connection.

Dinners, lunches, etc., as in previous years, were served very satisfactorily by the W.C.T.U., their service being much appreciated.

In the judging of the cattle Frank Leeson was complimented on his Holstein cow, the judge remarking it could be considered the foundation of one of the best dairy herds in Alberta.

With his fine herd of Holsteins, in the other sections, J. E. Leisemer swept the board, winning four firsts and four seconds.

The silver cup donated by the Bank of Montreal was won by Frank Leeson, who also won it last year. In 1925 it was won by M. Weber. To become the

absolute property of the exhibitor, it has to be won three times.

Races

The results of the horse races were as under:—

Harness Race—1, Dave Sinclair; 1 and 2, A. McBain.

Open Race—1 and 3, Havens; 2, Bellamy.

Pony Race, 14.2—1, Rollier; 2, Geiger; 3, Felix.

Relay Race—1, E. Havens; T. Bellamy.

Boys' Pony Race—1, Klein; 2, Munsey; 3, Fulkerth.

Half Mile Foot Race—1, H. Steckley; 2, Len Cotton.

100 Yards Dash for Men—1, Loewen; 2, Gooder.

The Baseball Tournament resulted finally in the victory of the Rosebud aggregation. The teams taking part comprised Clovermount, Rosebud, Lone Pine, and Community Hall.

For the sports Geo. Julien acted as manager and Ed. Blain and Geo. Haag were judges for the horse races.

Prize Winners at the Fair

The judges in live stock were as follows: A. Gordon, Stettler, heavy horses; T. Maude, Lacombe, beef cattle, sheep and swine; A. Phillips, Olds, light horses; F. Wetherington, Calgary, poultry.

Horses

Purebred Clyde stallion, 2 years old, Morton.

Purebred Clyde stallion, 1 year old, 1 and 2, Gibson.

Purebred Percheron, 3 years and over, W. J. Fulkerth.

Class 1—Sec. 8, Sam Good.

Class 1—Sec. 13, W. E. Reider 1, Mrs. Van Marriion 2.

Class 2—Sec. 1, W. J. Fulkerth 1, Hagerty (Olds) 2.

Class 2—Sec. 2, Fulkerth 1, H. Gibson 2.

Class 2—Sec. 3, Fulkerth 1. Sec. 4, 1 and 2 Hagerty. Sec. 5, Hagerty 1, Fulkerth 2.

Class 3—Sec. 1, A. Kershaw; Sec. 2, 1 and 2 Hagerty; Sec. 3, E. O. Wait; Sec. 4, 1 and 2 Kershaw; Sec. 5, Fulkerth 1, Kershaw 2.

Class 4—Sec. 2, Fulkerth 1, Dave Irwin 2 and 3. Sec. 5, Hagerty 1.

Class 5—Sec. 1, H. Gibson. Sec. 2, Hagerty 1, Irvine 2, Klein 3. Sec. 4, Geo. Dippel 1, Schaffer (Olds) 2.

Class 6—Sec. 1, Otto Klein 1, Fulkerth 2, Mrs. E. Klinck 3. Sec. 2, Klinck 1. Sec. 3, Fulkerth 1, Klinck 2, Wait 3. Sec. 4, Wait 1, Klinck 2.

Sec. 5, Klinck 1, Fulkerth 2, Klein 3. Sec. 6, E. Knott 1, Klinck 2, John Leaven 3. Sec. 7, J. V. Berscht 1, Van Marriion 2. Sec. 8, Kershaw 1, Knott 2, Klinck 3. Sec. 9, J. V. Berscht.

WORLD HAPPENINGS BRIEFLY TOLD

D. A. McGregor, of the Vancouver Province, Vancouver, B.C., won the gold medal offered for the best editorial in Canadian daily newspapers dealing with Confederation, its purposes and achievements.

Investigation into the possibilities of Esperanto as an ideal language for world communication and for study in school curricula may be undertaken by the council of the World Federation of Education Associations.

Immigration to Canada during June amounted to 18,652, compared with 12,191 in the same month a year ago, an increase of 48 per cent. These figures are disclosed in a statement issued by the department of immigration.

Former Premier David Lloyd George has promised that he will visit the United States in 1928 to meet American Welshmen and preside at the International Elsteddod, says a dispatch to The Westminster Gazette from Llangollen, Wales.

Rats have reached the Kronau district in Saskatchewan and appear to be increasing in numbers from the amount of damage reported. Some farmers have had young chicks killed by the rodents, and others have complained of damage done to grain bins.

Postal regulations are summarized in a new booklet issued by the Post Office Department. It is a compendium of information on the many services of the post office. The public may obtain a copy of the same on application to the post office.

A movement to change the name of the Sons of England Benefit Society was defeated at the annual meeting at Ottawa of the organization. By a standing vote the delegates threw out the motion for the deletion of the word "benefit" from the society's title.

The United States will move forward immediately in a naval program described as moderate, it was decided by President Coolidge and Secretary Wilbur of the navy after surveying the consequences of the failure of the Geneva naval limitations conference.

Reduced by Asthma. The constant strain of asthma brings the patient to a dreadful state of hopeless exhaustion. Early use should be made of the famous Dr. J. D. Kellogg's Asthma Remedy, which more than any other acts quickly and surely on the air passages and brings blessed help and comfort. No home where asthma is present in the least degree should be without this great remedy.

Wealth Of Alberta Oil Fields. Further proof of the wealth of the Alberta oil fields appears in the reports of two strikes made recently in wells in the Turner Valley field, according to Provincial Government reports. At the Dalhousie No. 5 well a heavy flow of crude oil testing about 42 Beaume is reported at a depth of 4,325 feet, while at the Regent well, production of crude oil testing about 60 Beaume was reached at 2,365 feet.

A field ant has been known to hold in its jaws a weight 3,000 times heavier than itself.

Campers.

A reliable first-aid remedy in the woods, for burns, bruises, cuts and wounds.

Highland Musical Festival

100 Medals Offered As Prizes At Game Contest and Musical Festival At Banff.

Under the patronage of His Royal Highness, the Prince of Wales, Canada will hold National Scottish Games and Music Festival at Banff in the Canadian Pacific Rockies, September 3 to 5.

The event is being planned on a most ambitious scale and promises to be a most elaborate affair. Each of the seventeen Highland regiments in Canada will send a piper to compete for the trophy offered by Mr. E. W. Beatty, President of the Canadian Pacific Railway for the best regimental piper in the Dominion.

Scottish music by folksingers and famous Scottish Concert artists, will attend, among whom will be Davidson Thomson, Ruth Matheson, J. Campbell McInnes and Jeanne Dussan.

The Highland Tribes of Indians in the Rockies will take part in the festival of song and dance. Their teepee encampment and gay native costumes will vie with the Highlanders of Scotland for attraction.

A very attractive booklet has been issued by the Canadian Pacific Railway in connection with the event copies of which are available on application to the ticket agent.

Not Worn Out Yet

The French scientist Charles Nordmann estimates that the sun will continue to give the world its heat and light for 150,000,000,000 years. The calculation was made possible by the discovery of the construction of the atom. This eliminates the old theory that the sun would burn out in 10,000,000 years at the most and reconciles geologists and astronomers, Professor Nordmann says.

FIRESTONE OFFICIALS

Top row, left to right:—W. A. Pope, sales manager; H. Foreman, assistant superintendent; Russell T. Kelley, advertising counsel; S. S. DuMoulin, Firestone Tire and Rubber Company of Canada, Limited. Bottom row, left to right:—C. A. Meyers, chief engineer; Leonard Firestone, Harvey S. Firestone, Firestone Tire and Rubber Company, Akron, Ohio; Earl W. BeSaw, vice-president and general manager, Firestone Tire and Rubber Company of Canada. Mr. Firestone announced an important addition to the Hamilton plant.

FIRESTONE PLANT TO BE ENLARGED SHORTLY

Head Of Famous Tire Corporation Makes Announcement—Founder Of Industry With Son, Visited Hamilton

One of the most important visitors to the City of Hamilton during Jubilee Week was Harvey S. Firestone, president and founder of the Firestone Tire & Rubber Company of Akron, Ohio, and also of the Firestone Tire & Rubber Company of Canada, Limited. Mr. Firestone was accompanied by his son Leonard, and Mr. Meyers, chief engineer for the company.

The visit marked the fifth anniversary of the start of manufacture of Firestone gun-dipped tires in Canada. Mr. Firestone declared that he was extremely impressed with the industrial growth of Hamilton, and of Canada generally, and with the progress of the Canadian Firestone company. As the Canadian Firestone was organized during rather trying times, he had not anticipated such rapid growth.

Says United States Faces Grave Situation

Dr. Henry Taylor Quoting Survey Report Believes Farms At Low Ebb

Agriculture is at low ebb in the United States and a food shortage may some day follow a lean crop year if the trend continues, according to Dr. Henry C. Taylor, of the Institute for research of land economies of Northwestern university in a report made public.

The farmer's share of the national income in 1926 was 9.7 per cent., the lowest percentage since records have been kept; 31,000,000 acres of land went out of agricultural use between 1920 and 1925, and there were 444 farm bankruptcies for each working day during 1926, the report states, in support of the statement that the situation is "a menace to the continued prosperity of United States."

The 1926 figure of 9.7 per cent. is to be compared with 20.7 per cent., the average share of agriculture for the five years 1909 to 1913. The high mark for the period was 21.7 per cent. in 1910, and the lowest 20.2 per cent. in 1911, according to the report.

During the past five years, the average share has been 10.3 per cent., or less than half what it was before the war.

The decline of agricultural prosperity has driven people from the land, Dr. Taylor declared.

"The farm population shrank by a matter of 2,000,000 persons between 1920 and 1925," he said, "while the population of the United States as a whole increased by 8,500,000. With the present rate of shrinkage of American agriculture we soon may reach the point in the United States where a poor crop year will mean a substantial shortage of food for the American people."

Sweet and palatable. Mother Graves' Worm Exterminator is acceptable to children, and it does its work surely and promptly.

There are two ways to buy a home on the installment plan. In one case you get a deed; in the other you get rent receipts.

A Valiant Knight

Wilfred T. Grenfell Wins His Spurs On Bleak Labrador Coast

Newfoundland has had its knights—several of them and at different times. Now Labrador has one of its very own, and it is safe to say there is not a worthier one in the ranks of chivalry. In the good old days, it was the custom for knights to ride abroad redressing human wrong, succoring distressed damsels, seeking adventure and destroying tyrants. Nameless and with blanked shields they went until some exploit of arms gave them the right to show their escutcheons and proclaim their names.

Labrador's knight, however, has already won his spurs. The tyrants of disease and loneliness, and King Winter, the hardened despot of the north, he has been fighting for quarter of a century. Damsels without number he has rescued on the rock-bound Labrador coast and adventure he has had no need to seek, for it has met him at every turn. Human wrongs, presumably, he has righted too, for he has long been a magistrate, though his friends say he knows no law. At any rate, he has ameliorated much human suffering and brought brightness into a myriad of lives. The King did honor the other day to the knightly Order of St. Michael and St. George when he enrolled Wilfred T. Grenfell among its members.—Vancouver Province.

Oil From Alberta

The total production of crude naphtha taken from the Royalite well and purchased from other wells in the Turner Valley field during the month of May, 1927, amounted to 22,835 barrels, according to figures published in the July issue of the Metallurgical Bulletin. This total is made up of 18,693 barrels produced by the Royalite No. 4 well, 757 barrels taken from Royalite wells Nos. 1, 2 and 3, and 3,385 barrels purchased from other producing wells.

Maltese dogs, the little white-haired animals so popular during Victorian days, no longer are found on their native island.

SUNDAY SCHOOL LESSON

AUGUST 21

GOD'S PROMISE TO DAVID

Golden Text:—"Thy throne, O God, is for ever and ever; and the sceptre of uprightness is the sceptre of Thy kingdom."—Hebrews 1:3.

Lesson: 1. Chronicles 17. Devotional Reading: Hebrews 1:8-12.

Explanations and Comments

1. David Plans To Build A Temple. Verses 1, 2.—When David was at peace with his enemies, he began to consider what next he could do for his kingdom. To Nathan, the prophet, he told the plan which he had probably long cherished. He himself was dwelling in a house of cedar, he said to Nathan, but the ark of God was housed under curtains, in a tent made from goat's hair. Compare Haggai's argument for rebuilding the temple, in Haggai 1:4. "David was an old man when he spoke these words, but old age had not chilled him as it so often does. It had not made him cynical nor selfish, as if there were nothing worth caring for but his own comfort. There is the ring of enthusiasm about his words, the note of resolve that nothing could be too splendid to be lavished on the house of the Lord of Israel."—E. H. Morrison.

David's plan seemed to Nathan good, and he told the king to do all that he desired to do, for God was with him.

"The Lord demands my best. I will not keep the house of cedar and offer him the fragile tent. He shall have the cedar. I will offer him my best! He shall have the best of my time. So often I give him the fragments of the day. I give him the moments of weariness, the remnant of the hour when I am quite worn out. I keep the best for business. Henceforth I would give him my brilliant moments. I would sacrifice 'the springs of the day' to his glory. He shall have the best of my powers. I do so often put my whole self into my pleasures, and only a fragment into my worship. My sacrifice is not a 'whole burnt offering.' Lord, 'take my all.' Graciously incline me to consecrate my best."—J. H. Jowett.

Miller's Worm Powders, being in demand everywhere, can be got at any chemist's or drug shop, at very small cost. They are a reliable remedy for worm troubles and can be fully relied upon to expel worms from the system and abate the sufferings that worms cause. There are many mothers that rejoice that they found available so effective a remedy for the relief of their children.

Surplus War Stock Sold

British Supplies On Sale Since Armistice Finally Disposed Of

British war supplies, valued at nearly \$3,500,000,000, which have been on sale ever since the Armistice, have now been finally cleared up, Charles E. Lyon, Assistant Commercial Attaché at London, has informed the Department of Commerce at Washington. Everything was put up for sale, from packages of pins to a \$35,000,000 motor truck plant. Aeroplanes went most slowly of all. Poison gas cartridges and other forms of munitions were not sold but taken out to sea and dumped overboard \$25,000,000 worth being disposed of in this manner. Among the items disposed of were thousands of miles of railway lines in Belgium, Greece and Palestine. The British Government sold its stock of pickled herrings, which were served to the Tommies as the "goldfish" was to American troops. The War Liquidation Board sold 800,000 barrels of them at something over \$5 a barrel.

CHAPTER VI.—Continued.

"You'll come over early, get dressed, and I'll make you up a little; just a little rouge on your cheeks, and your eyes darkened a little. You will go out in the car with my driver, and at the proper time he will bring you in, and I will introduce you. You will dance with two or three and then come to me and tell me you are tired. There will be a great fuss then over you, but you will insist on going. Thomas will drive away with you and then bring you back to the back door. Manda will be in the secret, of course, and she will see that the doors are shut. No one will see you, and you'll go to her room, slip off the clothes, put on your own, wash off the rouge and powder, and come down and help to serve. Won't it be fun?"

Helmi's days following this were passed in a golden glow of expectation. The whole air around her, the chaste, unimpeachable air of Miss Abbie's kitchen, trembled and glittered with visions. Her little world had been suddenly changed by the touch of clinging silks and the gleam of starry eyes—and those her own! Her young soul was intoxicated with the new wine of beauty and adventure.

At the next Ladies' Aid Meeting Miss Abbie complained of Helmi's absent-mindedness. "I declare," she said, "that Helmi girl of mine is bewitched. She gave the milkman bread tickets this morning, let the toast burn, and I heard her talking to her-

self. 'I am so verree tired I beg leave to withdraw,' she said, and by the air of her you would think she was a queen upon her throne. I asked her if the girls were putting up a play or something, but she said not. But she is in great glee over something. I hope she's not going to be taken down; she's a grand girl, only for this, and this has all come on so suddenly."

The day of the party came. Helmi asked Miss Abbie if she might go over early to help Mrs. St. John, a request which was cheerfully granted, and with a heart as light as a dandelion Helmi ran over the road.

It was a spicy day in late September, when Indian summer hangs its banners on the trees. The asters and dahlias, now at their best, lifted their proud heads to the sun, revelling in the rich amber sunshine. Laura St. John dahlias, creamy and waxy, with tips of burnt orange, bordered the path, so luxuriant in color, so utterly profligate and over powering Helmi could not pass them without paying them the homage of her beauty-loving heart. They were so lovely they hurt her some way. She wanted everyone to see them. Next day would be dahlia show and they would be taken to the big ballroom in the hotel, where prizes would be awarded.

Dressed in her neat gingham dress, with low-heeled brown oxfords, brown stockings, her golden hair in neat rolls, Helmi looked like a favored child in some well-to-do family. Her heart sang with happiness. She was getting on. Canada was very good to her. She was learning, too. She could now speak over the telephone, buy things at the grocery, and one laughed at her accent. Miss Abbie was pleased with her and would pay her real wages next month, and all the girls were nice to her. Next meeting she was going to sing a Finnish song.

Helmi, as always, had come over early. Mrs. St. John would not be through with her sleep yet. So she toiled happily at the gate, with dreamy eyes. The birds in the golden cages were hung outside, and by their rapturous singing had attracted a flock of wild canaries that were fluttering just over the caragana hedge, trying to get a hearing with their aristocratic knifolk. Helmi wondered what they were saying. She wondered if the caged birds grieved for freedom and the upper air when they saw their joyous brothers skimming past so light of wing, so happy in the sunshine. Yet there was no trace of sorrow in the caged birds' song, which mounted higher and higher. They were thinking perhaps of the bitter winds of winter, which held no terrors for them, for they were safe and warm, cared for, sheltered, fed, and yet birds were made for freedom, for unfettered flights, blue skies, mountain peaks. "Cages brought safety; the open air held danger. There you are—choose!"

Helmi stretched her strong young arms and breathed the perfumed air. "I will take the open air and danger!" she said.

Looking again at the riot of color the garden held, crimson and lemon and glittering gold, Helmi broke into her own tongue. "Here it is!" she said, "my picture! Aunt's Flower Garden! It has come true! It was not only a picture drawn on paper; it was a promise—a true promise." Gratitude filled her eyes with happy tears. God was very good. A desire to speak to God was on her. She looked up to the sky and wished she could see Him just for one little minute. Then the words came, the words of the covenant she had made with Him; "Cherish health; seek truth; know God; serve others."

Then in her loyal heart Helmi prayed to God to let Aunt Lili know. Surely He would. Aunt Lili was so good—and she would be glad to know Helmi had found the Garden.

Anyway, when she went to heaven herself she would tell Aunt Lili, and she would be sure to go to heaven now. She was going to be such a lovely lady no one could keep her out any more than they could keep out Mrs. St. John, and besides, she would be so good to poor girls, everyone would love her.

She would bring out Finn girls—a ship load of them—and make lessons for them on the boat, and show them how to make dresses and do their hair, make stylish coats and say stylish English words. She would drive her own car going to see her Finn girls, and would teach them nice yells like Canadian girls make, and have nice suppers and give them copies of the Blue and Gold Book.

Lost in the pleasant dream, Helmi did not notice that a cloud had come over the sun and a chill had fallen. A drab little wind, with an ugly jagged edge on it, came twisting across the road blowing dust in her eyes. She looked up. Aunt's flower garden had faded, and with it the vision splended.

A sudden chill fell on Helmi's heart. Like most of her countrymen, she was superstitious, and she shuddered now with a sense of dread. Shivering she went into the house.

Seeing no one around, Helmi ran upstairs. Her friend was sick, maybe. That was the trouble which was coming.

In a darkened room, smelling heavily of some strange odor, Helmi found her lovely lady lying with face white and drawn, her eyes burning like Aunt Lili's had been. Helmi's heart was sick with fear. Was she to lose the flower garden again?

"Oh, Mrs. St. John, what is it?" Helmi's English grew panicky.

"I will be all right, Helmi," her friend's ready voice reassured her. "You can help me. Will you go down town for me?"

"O yes, I go anywhere," whispered Helmi, frightened by her friend's ghastly pallor; "I get doctors—he will get medicine."

Mrs. St. John's hand flew up in an imperative gesture. "You'll do as you are told, Helmi! I do not want the doctor."

The angry tone brought tears to Helmi's eyes.

Mrs. St. John's voice softened. "Don't mind me, Helmi, I'm so sick. The doctor wouldn't understand, and he would be cross."

Helmi grew more mystified.

"Listen, dear, you are my best little friend. I can trust you. Never tell, Helmi, I have a bad heart, and only one medicine can make me well." She paused a minute, and Helmi could feel her burning eyes on her face in pained entreaty.

"Can I get?" asked Helmi.

CHOLERA, CRAMPS, PAINS IN THE STOMACH RELIEVED BY

Mrs. D. Leavitt, Back Bay, N.B., writes: "Last summer my children were very ill with cholera and suffered severely from cramps and pains in their stomachs. I tried several remedies, but nothing seemed to do them any good. A friend of mine told me to try Dr. Fowler's Extract of Wild Strawberry. I got a bottle and gave them a few doses and they soon found relief. Now I will never be without it in the summer months."

Don't Accept a Substitute

This preparation has been on the market for 80 years; put up only by The T. Milburn Co., Limited, Toronto, Ont.

"Yes, dear, you can. Go down town—here's the address, ask for Sam. He's a doctor, a Chinese doctor, that's why we mustn't tell. Dr. St. John would be angry. Doctors often hate each other. Dr. Sam will give you a little box for me. Just say a lady sent you. Don't say my name Helmi. And never tell—Oh, Helmi, I will love you if you'll never tell. I must have taken my box—who else—think he knows—the doctor—for he Sam always sends it with the laundryman, but today the doctor was here. I am so afraid, Helmi. Did you take my box, Helmi?"

Helmi's eyes went wide with terror.

"No, no, I'm crazy with pain. Go, Helmi, and be quick and never tell. Helmi promise me; if you tell I will die."

(To Be Continued.)

Little Helps For This Week

By thy words thou shalt be justified, and by thy words thou shalt be condemned.—Matt. xii. 37.

Words are mighty, words are living; Serpents with their venomous stings.

Or bright angels crowding round us With heaven's light upon their wings.

Every word has its own spirit, True or false that never dies; Every word man's lips have uttered Echoes in God's skies.

—Adelaide Anne Proctor.

The evil word—and oh, remember this—is a step, a long step, beyond the evil thought; and it is a step toward the precipice's edge.

—Frederic W. Farrar.

Remember that every word you utter wings its way to the throne of God, and is to affect the condition of your soul forever. —Todd.

Ivory Making Eskimos Rich

Long Buried Tusks Found On Islands In Behring Sea

An ivory harvest arrived at Tacoma recently on the schooner Boxer, which represented an unintentional bequest from long dead Eskimos to the present generation. For ages natives of the islands in Behring Sea took walrus, ate the blubber and threw the gleaming white tusks on the dump or kitchen midden, back of their igloos.

The piles accumulated during the centuries until the white man came, with his trading schooners and eagerly bought the tusks of freshly-killed walrus. The Eskimos of today, remembering the wasteful habits of their ancestors, promptly began to sink mines on the sites of ancient camps and villages. Each year for four years on St. Lawrence Island alone they have dug out thousands of dollars worth of fossil ivory.

The up-to-date and semi-educated Eskimos do not waste time going far to se spearing their meat, they simply mine the buried treasure, sell it and buy the white man's food with the profits.

A Remedy For Earache.—To have the earache is to endure torture. The ear is a delicate organ and few care to deal with it, considering it work for a doctor. Dr. Thomas' Electric Oil offers a simple remedy. A few drops upon a piece of lint or medicated cotton and placed in the ear will do much in relieving pain.

Wedded To a Tree

Blind Girl in India Is Tragic Figure

A blind girl of twelve gropes her way with extended hand at dusk each night to a sacred tree at Bardoli, India, and puts her arms around it, crying softly over the tragedy of her life. The tree is her husband under Hindu law and she can never have another. When she was six years old the child had smallpox. Her face was disfigured and she was blinded. Her father, deciding no man would ever want to marry her, and not desiring to suffer the stigma of having an unmarried daughter, had her married with full Hindu rites, to the tree. There was a formal wedding feast to celebrate the event.

Ontario Main Source Of Cobalt

For the past twenty years the Cobalt silver area of Canada has been the main source of the world's supply of cobalt. In the period 1907-1926, both years included, the total output of cobalt was 21,843,764 pounds.

Minard's Liniment for burns.

Why Gum-Dipped Mileage Costs Less "Per Mile"

The demand from car owners for Firestone Gum-Dipped Tires has given Firestone Dealers a large increase in volume that enables them to sell these tires to you at the lowest prices in the history of the industry.

The Firestone Balloon Tread, scientifically designed three years ago, and unchanged today has the wear-resisting qualities that give thousands of extra miles.

This tread must be placed on a carcass that has the qualifications to withstand terrific flexing. The Firestone carcass is made of cords dipped in rubber solution which not only saturates and insulates every fibre of every cord, but unifies sidewalls with carcass, eliminating any possibility of separation under the extreme flexing of low-pressure tires.

The Firestone Dealer in your locality will gladly explain the Gum-Dipping process, the scientifically designed tire tread, and other advantages that only Gum-Dipped Tires can give. See him today.

Shipment Of Stone Marten

A shipment of stone marten was made recently to the United States Experimental Fur Farm in New York State, the animals having been caught in the Lake Windermere district of British Columbia.

NO BETTER MEDICINE FOR LITTLE ONES

Is What Thousands Of Mothers Say Of Baby's Own Tablets

A medicine for the baby or growing child—one that the mother can feel assured is absolutely safe as well as efficient—is found in Baby's Own Tablets. The Tablets are praised by thousands of mothers throughout the country. These mothers have found by actual experience that there is no other medicine for little ones to equal them. Once a mother has used them for her children she will use nothing else. Concerning them Mrs. Charles Hutt, Tancoek Island, N.S., writes: "I have ten children, the baby being just six months old. I have used Baby's Own Tablets for them for the past 20 years and can truthfully say that I know of no better medicine for little ones. I always keep a box of the Tablets in the house and would advise all other mothers to do so."

Baby's Own Tablets are sold by all medicine dealers or will be mailed upon receipt of price, 25 cents per box, by The Dr. Williams' Medicine Co., Brockville, Ont.

In the course of a month a caterpillar will devour 6,000 times its own weight in food. It will take an average man three months before he eats a quantity of food equal to his own weight.

TROUBLED WITH RASH ON FACE

Itching Was Terrible. Cuticura Healed.

"My trouble began with a severe rash on my face which for about six weeks caused a terrible itching, burning sensation. The irritation caused me to scratch, and scratching caused sore eruptions which covered my face. My face was disfigured, and the trouble lasted about four months."

"I tried other remedies but they seemed to make the trouble worse. I sent for a free sample of Cuticura Soap and Ointment and got relief after using it. I purchased more, and in a short time I was healed." (Signed) Miss Annie E. McCluskey, Box 113, Grand Falls, N.B.

Use Cuticura to clear your skin. Sample Each Free by Mail. Address Canadian Depot: "Shanklin Ltd. Montreal." Price, Soap 25c. Ointment 50c and 10c. Talcum 25c. Cuticura Shaving Stick 25c.

LOCAL AND GENERAL

Mrs. A. J. Alexander of Victoria, B.C., is visiting her parents Mr. and Mrs. W. Sharp.

Russell Berscht, Ben Robinson, Aylmer Liesemer of Didsbury, and Douglas Ash of Calgary left this week on an auto trip to the Pacific coast and Yellowstone Park.

Mr. and Mrs. Geo. Lunt, who have been touring B.C. and spending an enjoyable holiday, returned home this week.

Jim McDougal has been mowing the fairways at the golf course, thus putting the approaches to the greens in good shape. Members of the Golf Club, by the way, are reminded that their dues are now payable, and the secretary, J. C. Clarke, will be glad to accept them at any time.

T. F. Mulholland of the local branch of the Bank of Montreal, has been transferred to Okotoks, where the best wishes of a large number of friends accompany him. He has been succeeded here by D. M. Gilchrist.

Mrs. J. J. Cummins moved into town on Saturday last. The farm she was renting has reverted to the owner, Mr. Eubank, who has also bought the equipment and crop. The valuation of the latter was made by a board of arbitrators, consisting of Jim Reed, A. R. Kendrick, Frank Leeson, Dave Irwin, W. R. Coates, W. Scheidt.

Mrs. J. Rowntree wishes to thank the ladies of St. Cyprian's Guild for the lovely flowers sent her while in the hospital.

Mr. and Mrs. A. Brusso are spending a few days at Banff.

Friends and acquaintances of Reggie Simpson, formerly of Didsbury, will regret to hear of his untimely death in Seattle, Wash. He was employed as a street railway conductor in that city. Pneumonia was the cause of his death. Reggie went overseas from Didsbury and after several years active service returned here, with however his health greatly impaired. He leaves his widow and young adopted son.

Sylvan Lake still continues to be a popular resort for "Didsburyites" over the week-end. Among those who motored up for the Saturday night dance were Clint Reiber, Ivan Weber, Miss Evelyn Liesemer, Miss J. Cameron (Calgary), Jack Johnson, and Benny Robinson. Sunday visitors to the lake included Mr. and Mrs. W. G. Liesemer, Mr. and Mrs. A. G. Studer.

Read the ads—it pays

Mayor Chambers and daughter Edith motored to Bowness Park last week-end.

Among those picnicking at the Dog Pond last Sunday were Mr. and Mrs. Ward Keith, R. Hawkes, Mr. and Mrs. J. R. Miller and family, Mr. and Mrs. Bobby Wilson and Mr. and Mrs. Cecil Studer.

Mr. and Mrs. Jack Boorman returned on Monday from their honeymoon trip. They spent three weeks visiting the coast cities and other places of interest.

Miss Winnifred Studer is spending a week in Calgary, visiting her sister, Mrs. Dan Campbell.

Mrs. E. Mattheson, with her children Vera and Warren, and her mother, Mrs. Nelson, are guests at Mrs. Studer's cottage at Sylvan Lake for the week.

Exceptionally good is "Men of Daring," to be shown at the Opera house on Saturday night. Wednesday next, August 24th, the picture is "Twelve miles out," featuring John Gilbert and E. Torrance.

Misses M. and W. Farmiloe arrived here last Monday from London, England, to stay for a few months with Mr. and Mrs. Stanley Fairfax-Brown.

P. R. Gochee returned on Saturday of last week to Rome, N.Y., after spending a month or two in town and district. He has met a large number of his old friends here, and regrets that time has not permitted of his meeting more. He however, takes this opportunity of wishing all of them good-bye and extends his best wishes.

Camping trips into mountains west of Olds. Inexpensive. Write for information. Miss E. McMurry, Bearberry, via Olds.

Mrs. Mary Rodney entertained a few friends at dinner last Sunday week, those present including Mr. and Mrs. Lewis Holmes, Mr. and Mrs. Lee Sanderman, Mr. and Mrs. A. Orde, Mr. and Mrs. Emil Kreds, Mr. and Mrs. W. Cuffling, Miss Laura Brown, Miss Dorothy Orde, Miss Ada Simon, Salem, Oregon, Mrs. H. Mann, Sylvan Lake, Miss Mary Hazelwood, R. D. Smith, Otto Fischer, Roy Havens, Roseberg, Oregon, G. W. Bracken, Toledo, Ill., Mr. and Mrs. Erven Rodney. A very enjoyable time was spent by all.

Rugby.

Miss R. Brubaker and Miss Mae Oliver were the guests of Miss Audrey Hosegood at the Bridge Ranch.

A most successful baby clinic was held last week at Rugby school under the auspices of the W.I. Dr. Jenkins of the Dept. of Public Health, Edmonton, examined 40 children. He was assisted by Miss M. A. Hughes, R.N., of Calgary, while Miss Brubaker acted as registrar. Several of the children were declared O.K. and those with defects were advised as to treatment.

Masters Albert and Lawrence Krebs have been distinguishing themselves as riders at the Calgary and Didsbury Fairs.

Mrs. J. Woolway, Red Deer, is visiting Mrs. Hosegood.

Master Douglas Hosegood is camping at Gull Lake.

Messrs. H. Hosegood, P. Hosegood and C. Brown and Mrs. Hosegood and Mrs. Brown returned last Wednesday from motoring over the Banff-Windermere.

Mrs. Byrt is spending a few days with Mrs. A. L. MacInnes.

Miss Pauline Luft is with Mrs. Duncan this week.

Mrs. R. Blain is visiting in Calgary.

Miss Ada Vipond has returned from Montana.

Another collection of native Canadian animals has gone forward across the waters through the Canadian Pacific Express Company. It included, two bear cubs, two porcupine, two coyotes, prairie dogs and marmots, two great blue heron and a collection of Canada geese, destined for the zoo at Pretoria, South Africa.

One feature of the celebration of the 60th anniversary of Confederation at Vancouver, July 1-4, will be the official opening of the 1,100-foot new Canadian Pacific Railway pier "B-C" on the latter date. This is the second largest pier on the American continent and is said to be the only pier in the world built in such deep water.

Canada's so-called "Barren Lands" in the Far North have been under examination for the past two years by the Forsild brothers, graduates of the University of Copenhagen, in the employ of the Dominion Government, for the purpose of ascertaining the value of this vast territory for accommodating reindeer.

Read and study the advts. this week's issue.

— a scientific method which makes Warm Air Canada's most satisfactory heating system

SCIENCE has applied to warm air heating that final touch which makes it vastly superior to any other form of heating. Haphazard installation—the defect which has long held back the warm air furnace—is now removed.

No longer need we rely on guesswork to supply our home comfort. Today, the correct methods of installation have been reduced by scientists to an exact formula known as the Standard Code. Now, a McClary's Sunshine Furnace, installed according to Standard Code, guarantees to the home an unfailing abundance of warm, moist, circulating, healthful heat—"seventy degrees in every room in sub-zero weather".

Ventiblast

The Ventiblast is an exclusive feature of McClary's Sunshine Furnace, which burns soft coal equally as well as hard coal or wood. It mixes pre-heated air with soft coal gases and converts them into flame—thus eliminating soot, waste and dust. This remarkable feature ensures you an ample fuel supply every winter, regardless of a possible hard coal scarcity.

Here and There

Nineteen ex-service men's families, sent out to Canada by the British Empire Service League, arrived at Quebec recently on the Canadian Pacific liner "Montross." These families, totalling in all about 100 persons, have been carefully selected and have been given training at the Ministry of Labor's Training Farm at Brandon, Suffolk, England. The men will carry on farming in the Western part of the Dominion.

A unique "Seeing Canada" expedition will set out from Ottawa on August 4 this year to visit the principal points of interest in the provinces from the Atlantic to the Pacific. The party to make the tour will include a selected number of delegates to the World's Poultry Congress, to be held at Ottawa in July. Practically all the nations of the world will be represented, and the party will journey first to the eastern part of the Dominion over the Canadian Pacific lines.

Raising reindeer for commercial purposes in Canada will be undertaken this year by the Dominion Reindeer Co., with headquarters at Vancouver; the company having imported some 5,000 head of reindeer from Alaska. This herd will be located on the vast grazing areas between the Athabasca and Great Slave Lakes on three million acres secured for that purpose.

H. W. Lennox, Inspector for the Dominion Forestry Branch at Indian Head, says: "The demand for trees has been insistent from all over the west. This year we have orders for 8,000,000, as against 6,000,000 in 1926." Following his tour of the west, he said: "I find generally a more settled feeling. People are planning for the future. The old days, when farming was a here today and gone tomorrow affair, have disappeared. Farmers are planting trees, and, wherever a grove of trees is found, there you will find contented homes."

Ottawa's memorial carillon, to be installed in the new Victory Tower at the Capital, arrived in Canada May 20 on the Canadian Pacific steamship "Balfour." The huge bells, weighing in all about 53 tons, will constitute one of the finest sets in the world. They were cast at the Croydon bell foundry in England.

Its fine qualities preserved in the modern Aluminum package.

RED ROSE TEA

"is good tea"

RED ROSE ORANGE PEKOE is extra good.

Trees In Western Canada

In the great nation-building work of settling the vast plains of Western Canada one objection to overcome with many intending settlers, especially from Ontario and other countries where woods and forests prevailed, was the lack of trees. To those accustomed to living in a treed country, the bare prairies with their unbroken stretches as far and farther than the eye could reach, presented a barren, uninviting appearance. There was not only a lack of that restfulness and beauty which trees provide, but an absence of protection from the elements when high winds prevailed, the snows drifted, and blizzards occasionally blew.

During the earlier days in the settlement of the West, many home seekers travelled long distances from the area traversed by the railway to find locations in districts where there were trees because, what they wanted, was not a mere temporary place where they could "mine" the soil for a time, make some ready money quickly, and then get out, but a new and permanent home for their children where they would have a better opportunity in life than in the lands from which they had come. They put up with inconveniences inseparable from their isolated locations solely because they preferred the wooded districts to the open, seemingly unattractive prairies.

In those early days, however, thousands of people came and took up homesteads who had no intention of establishing permanent homes. They were speculators, more or less indifferent to their surroundings, concerned only with the making of money as rapidly as possible. They were quite frank in admitting they had no thought of making the West their home for the remainder of their lives, but that, on the contrary, they were using it as a half-way house, a stepping stone to some other and better place. Many came with the idea of making money which they could not accumulate in their old Eastern homes and then returning there to live and ultimately die.

Some years ago the fact was borne into the minds of the Federal Government that the problem of peopling the West was not so much one of immigration as of colonization; not so much the obtaining of settlers as the retaining of them once they had come. In a word, the real problem was how to get people to regard the West as a place of permanent residence; how to get people to establish homes rather than mere dwelling places.

It came to be realized that a farm house, stables and barns set down in the midst of a flat prairie, utterly lacking in anything approaching beauty of location and surroundings, could never appeal as a "home," and could never inspire in the minds and hearts of children that affection which the parents still retained for the old homes they had left. And it was realized that what was needed to convert these prairie dwelling places into real and permanent homes was "trees."

There was an impression abroad, however, that trees would not grow; if they would, why was not the prairie country covered with them as was the case in other lands of vast virgin areas. But this was not a convincing answer, and it was argued that if trees would grow elsewhere, they would grow on the rich, fertile plains of the West. And, always, some enterprising settlers soon proved that this was so.

The problem of getting trees, getting them in large numbers and cheaply, because these early settlers had little money to spend, and just the right way to plant and cultivate them, still existed. Then the Dominion Government inaugurated one of the finest of its many splendid services for agriculture when it established forestry farms in the West.

These farms have worked a veritable revolution in the appearance of this Western country. Established, as they were, on the bare prairie, in a few years they were converted into miniature forests. From them have gone forth millions of trees, distributed free of charge to farmers all over the West. Experts have advised on tree culture, farmsteads have been inspected, advice on planting given. Today, hundreds and thousands of Western farm dwellings have been transformed into homes of real attractiveness and beauty to which their owners and their children have become permanently attached and for which a real love is now manifested. Trees have proven a great and effective agent of colonization, while at the same time providing shelter for stock, protection for gardens, and a comfort to all when strong winter winds sweep across the land.

Prairie cities, towns and villages have caught the spirit and learned the lesson taught by these forestry farms, and formerly wholly unattractive places, as, for example, the capital city of Saskatchewan, whose nature failed to endow with any of her assets, have become places of real beauty which are a source of pride and delight to their residents, and of surprise and pleasure to visitors from afar.

The Federal Government is deserving of all praise for its forestry farms and tree planting policy, and to an ever increasing extent it is to be hoped the people of Western Canada will second the efforts of the Government and even more energetically prosecute the work of surrounding their homes with trees.

Children Cry For "Castoria"

Especially Prepared for Infants and Children of All Ages

Mother! Fletcher's Castoria has been in use for over 30 years to relieve babies and children of Constipation, Flatulency, Wind, Colic and Diarrhea; allaying Feverishness arising therefrom, and, by regulating the Stomach and Bowels, aids the assimilation of Food, giving natural sleep without opiates.

The genuine bears signature of

Chas. H. Fletcher.

New Use For Alarm Clocks

Warn Topeka Business Men Of Time Limit For Parking

The alarm clock, faithful servant of the American home, now is employed as a warning that the business man's automobile has been parked long enough and that it's time to move on.

With a two-hour parking limit in the business section of Topeka, Kansas, business houses have installed alarm clocks in their offices. At the end of two hours the alarm rings. A man gets up, hurries out and moves all the automobiles belonging to employees. The alarm is set ahead two hours and the performance repeated. So it goes through the day.

Minard's Liniment for cuts and bruises.

Speed Hard To Imagine

Expect English Racing Plane Will Travel 300 Miles An Hour

Some weeks ago an English army officer, in a speed test on a Florida beach, drove his car at a speed of 207 miles an hour. This is the greatest rate of travel ever made in any sort of machine driven on land or sea. But it is reported that an airplane has been made in England for a forthcoming race which can develop a speed of 300 miles an hour.

It is not easy to realize what it would mean to travel at such a rate of speed. The fastest express trains rarely go faster than sixty or seventy miles an hour. Three hundred miles an hour is a speed greater than the average velocity developed by a human being falling from a great height. The French aviator Jean van Laere, flying over Beaumont-sur-Oise, got into difficulties at an altitude of more than four miles, and jumped with his parachute from the machine. The parachute did not open until he was only 300 feet from the ground, but in time to save his life. From the moment he jumped until the moment the parachute opened he fell four miles in about twenty seconds. That is at the average rate of 206 miles an hour. And the mystery plane will, it is said, be capable of a speed 50 per cent. greater than that!

Paint a Corn With This Marvel Liquid

The pain stops in a few seconds. Tight shoes won't hurt anymore. The Corn shrivels up, and drops off. Removes the whole corn and doesn't pain a bit. It's the sure remedy—Putnam's Corn Extractor. All druggists sell Putnam's Corn Extractor. Get your bottle today. Refuse a substitute for Putnam's.

Waterpower Resources

The official information available at a central source regarding the water-power resources of Canada, as to capacity, and availability is most complete. The Index Inventory System of investigating and recording water-power resources, originated by the Dominion Water Power Branch of the Department of the Interior and developed and carried out in full collaboration with the provincial governments, has resulted in all possible information on this subject respecting any river or district being available at the head office in Ottawa for any interests concerned.

The Many-Purpose Oil. — Both in the house and stable there are scores of uses for Dr. Thomas' Electric Oil. Use it for cuts, bruises, burns, scalds, the pains of rheumatism and sciatica, sore throat and chest. Horses are liable very largely to similar ailments and mishaps as afflict mankind, and are equally amenable to the healing influence of this fine old remedy which has made thousands of firm friends during the past fifty years.

Growing Tobacco In B.C.

Experimental crops of tobacco are being grown on 65 acres of land at Oliver, B.C. Fifty acres have already been planted to the satisfaction of Mr. McVette, of the B.C. Tobacco Products. Good progress has been made and the prospect is promising.

There may be other corn removers, but you will not be completely satisfied until you have used Holloway's Corn Remover.

Historic Memorials

Massive Fortress Of Fort Lennox On the Richelieu River

Among the historic memorials of Canada that have been from time to time placed under the care of the Canadian National Parks Branch of the Department of the Interior there is none richer in historic interest or more charmingly situated than the massive old fortress, Fort Lennox, that stands in quiet dignity on the southern end of Ile aux Noix in the Richelieu river, in the province of Quebec. This fortress was erected by the British military authorities in the early part of the nineteenth century and since its abandonment as a military post in 1869 has been visited by increasing numbers of tourists each year.

Britishers For Prairies

T. O. F. Herzer, manager of the Canada Colonization Association, states that this organization has placed 400 Old Country families in the Prairie Provinces this year and that 800 other families will arrive before the end of the year.

WHEN USING
WILSON'S FLY PADS
BEAT THE FLIES
CAREFULLY AND
FOLLOW THEM
EXACTLY

There is only one way to kill all the Flies

This is it—Darken the room as much as possible, close the windows, raise one of the blinds where the sun shines in, about eight inches, place as many Wilson's Fly Pads as possible on plates (properly wetted with water but not flooded) on the window ledge where the light is strong, leave the room closed for two or three hours, then sweep up the flies and burn them. See illustration below.

Put the plates away out of the reach of children until required in another room.

The right way to use Wilson's Fly Pads

Fair Dates For 1928

Western Association Of Exhibitions Hold Meeting In Regina

At a meeting of the executive of the Western Canada Association of Exhibitions, held in Regina, recently, dates for the coming year were arranged as follows:

Brandon, July 2 to 6; Calgary, July 9 to 14; Edmonton, July 16 to 21; Saskatoon, July 23 to 28; and Regina, July 29 to Aug. 1.

A meeting of the executive will be held in Toronto to interview Hon. W. R. Motherwell in regard to grants and other matters of common interest.

The various fair associations were represented by the following men:

From Regina, H. G. Smith, J. R. Martin, D. T. Elderkin and J. F. Robinson; from Saskatoon, Robert Thomas, Archie Wilson, Sheriff Calder, and S. W. Johns; from Brandon, William Dowling, Archie McPhail, J. E. Bettie and J. A. Chapman; from Calgary, N. S. Christie, E. D. Adams and E. L. Richardson; from Edmonton, W. J. Stark was the only representative. President Nat Christie presided.

Wins Premier Prize

The Shorthorn bull, King of the Fairies, recently sold from the Canadian ranch of H. R. H. the Prince of Wales to a United States breeder, again won the premier prize at the Calgary Exhibition. The "King's" son, Prince of the Fairies, however, lost out and had to sell his crest to Colynle White Ensign, belonging to T. A. Russell, of Toronto.

For corns and bunions use Minard's Liniment.

A kiss causes palpitation of the heart and shortens life three minutes, students in Western State College in Colorado have discovered. Thus 480 kisses would eliminate a full day of one's life.

Leaves Valuable Estate

An estate provisionally valued at £1,044,613 gross, was left by the fifth Marquis of Lansdowne, former governor-general of Canada, who died at Clonmel, Ireland, in June. It was shown by his will recently. The widow and the present marquis are the beneficiaries.

WEAK AND NERVOUS

The Condition Of a P. E. I. Lady Who Again Rejoices In Good Health

"I can most heartily recommend Dr. Williams' Pink Pills to all weak people," says Mrs. Augustin Arsenault, Wellington Station, P.E.I. "Before I began their use I was very weak and nervous. I had always worked hard, with no thought of my health, until suddenly my strength left me. I began to feel tired and depressed, and did not sleep well at night, feeling just as tired in the morning as when I went to bed at night. I began to feel discouraged when I would think of the work necessary for me to do. I got some medicine from the doctor whom I consulted, but it did not appear to meet my case as I showed no improvement while taking it. Then a neighbor advised me to try Dr. Williams' Pink Pills and I got a supply of this medicine. I very soon found they were helping me, and I continued their use until I was well again, and I have been strong and well ever since."

Dr. Williams' Pink Pills do one thing—and do it well. They build up, purify and enrich the blood, and as the blood supplies the whole body, new life is given to the entire system. Better sleep, steady nerves, improved appetite, increased vigor—all these can be yours by taking Dr. Williams' Pink Pills. Begin today. Sold by all medicine dealers or by mail, post paid, at 50 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

More buildings were started in Canada in the first four months of this year than in the same period of the past seven years.

Genuine
ASPIRIN

Proved safe by millions and prescribed by physicians for

Colds Headache Neuritis Lumbago
Pain Neuralgia Toothache Rheumatism

DOES NOT AFFECT THE HEART

Safe

Accept only "Bayer" package which contains proven directions.

Handy "Bayer" boxes of 12 tablets. Also bottles of 24 and 100—Druggists.

Aspirin is the trade mark (registered in Canada) of Bayer Manufacture of Monocrotic Acid and Salicylic Acid (Acetyl Salicylic Acid, "A. S. A."). While it is well known that Aspirin means Bayer Manufacture, to assist the public against imitations, the Tablets of Bayer Company will be stamped with their special trade mark, the "Bayer Cross."

FORT CHURCHILL TO BE TERMINUS OF THE H.B. ROAD

Nelson, Man.—Fort Churchill, the ancient port of the Hudson's Bay Company, which in the 18th century was a naval base and called Fort Prince of Wales, the picturesque ruins of which still stand, will be the terminus of the Hudson's Bay Railway.

Fort Churchill, situated at the mouth of the Churchill River, a great natural harbor, 477 miles from The Pas, Man., will be recommended to the Federal Government as the Hudson's Bay Railway port by Frederick Palmer, distinguished British engineer, who has just concluded a survey of both Fort Churchill and Port Nelson harbors.

Mr. Palmer, who will submit a preliminary report to the Federal Government during the present month, announced his decision to recommend Fort Churchill.

"It is a natural harbor in which practically unlimited shipping accommodations can be provided in the shortest time and at a minimum of cost," declared Mr. Palmer. "It is almost incomparably superior to Nelson in safety, cost of construction and economy of time."

Following Mr. Palmer's announcement, Hon. Charles A. Dunning, Minister of Railways and Canals, stated that the Government would act immediately on the British engineer's recommendation.

"Nature has given us a wonderful harbor at Churchill and it is the policy of the Government to develop and make use of the whole Hudson's Bay route as quickly as possible," said Mr. Dunning.

The Federal Department of Railways will proceed immediately to push forward work at Churchill from the sea, and the Canadian National Railways, acting for the department, will complete construction of the remaining railroad link as speedily as possible, Mr. Dunning announced.

Crop Report Encouraging

Under Favorable Conditions Yield May Exceed First Estimates

Ottawa.—The crop report of the Dominion Bureau of Statistics, based on condition of all field crops throughout Canada is excellent. The condition of spring wheat is numerically expressed as 165 per cent. of the ten year average, representing an anticipated yield of 15.6 bushels per acre and a total forecast for all wheat of 357,367,000 bushels from 22,335,777 acres.

Last year, at the corresponding date, the condition of spring wheat was reported at 92 per cent., representing an average yield per acre of 13.6 bushels and the total forecast for all wheat was then 316,960,000 bushels. The final estimate of yield for 1926 turned out to be 409,811,000 bushels.

Assuming that conditions this year remain favorable until time of harvesting, there appears to be grounds for expectation that the wheat crop may turn out to be more abundant than the forecast of 357,367,000 bushels now indicated by the condition at the end of July, the report says.

London To London

Airmen Selected

Captain Tully and Lieut. Medcalf Chosen To Make Flight

London, Ont.—Captain T. B. Tully, for the past several years superintendent of the Ontario Government air services, Sault Ste. Marie, with Lieut. James V. Medcalf, of the same service, have been chosen pilots for the London, Ont., to London, England, non-stop flight.

They signed their contracts with Charles Burns, donor of the \$25,000 prize for the flight, and left at once for Detroit to take charge of the Stinson Monoplane, scheduled to be completed and fully equipped with all navigation instruments in time for delivery in London, August 15.

The pilots hope to be ready for a take-off, if weather is favorable, within a week or so.

W. N. U. 1694

Settlers Under Group Plan Are Prospering

Progress Made During Summer Says Canada Colonization Official

Winnipeg.—On his return from an inspection tour of the settlements made by the Canada Colonization Association in the West, R. C. Duncan, assistant manager brings an account of good conditions.

Prospects in Alberta, Mr. Duncan says, are particularly bright. On the George Lane farm at Namaka, colonized under the auspices of the association by 36 families, the settlers expect to pay off \$50,000 of their indebtedness this year, and have taken out extra hail insurance to protect their crop, which is the best in the history of that district.

Settlements made by the association in the Lethbridge district are so successful that it has been decided to increase them by 25 families this fall. One of the settlers has placed 120 acres in sugar beets, 50 acres in potatoes and 100 acres in wheat and other small grains, from which his returns this fall should be close to \$15,000. There are eight families now working for him.

The 14 families placed on the Bulman farm near Kelowna, in British Columbia, are doing well. Their onion crop has been harvested. A representative of the Canada Colonization Association will be placed in the Okanagan Valley to look further into opportunity for group settlement there.

Mr. Duncan is leaving this week for Ontario to investigate settlement possibilities in the tobacco fields of Essex county, where a large number of families have been temporarily placed.

Agricultural Statistics

Number Of Occupied Farms In West Is Less Than In 1921

Ottawa.—The Dominion Bureau of Statistics has issued a preliminary report on the agricultural statistics of the provinces of Manitoba, Saskatchewan and Alberta, as shown by the quinquennial census taken in June, 1926.

The report showed a decrease in the number of occupied farms in all three provinces over the year 1921, when the last census was taken. The 1926 census showed 53,251 occupied farms in Manitoba as compared with 53,252 in 1921; 117,787 occupied farms in Saskatchewan as compared with 119,451, and 77,130 in Alberta as compared with 82,954.

Total acreages occupied as farms land with 1921 comparisons in brackets were shown as follows:

Manitoba, 14,411,597 (14,615,844); Saskatchewan, 45,943,965 (44,022,307).

Alberta, 28,572,931 (29,293,053). Improved farm land was shown as: Manitoba, 8,346,021 (8,957,823); Saskatchewan, 27,714,015 (25,937,491); Alberta, 13,294,156 (11,768,042).

Police Watching Garibaldi

Liverpool.—Col. Ricciotti Garibaldi arrived from Havana, Cuba, on the liner Oroya. He was given a registered address by the police and asked to remain there but is allowed full liberty. Col. Garibaldi was arrested for complicity in the Catalonian conspiracy in November, 1926. The formal charge was that of possessing arms illegally and he with Col. Macla, was sentenced to two months' imprisonment and fined £3.

Penalty For Starting Grass Fire

Sacramento, Cal.—State forestry officials have been notified of a novel sentence to a careless smoker, who was responsible for starting a grass fire in Tehama County. It was by Justice of the Peace E. F. Lennon and under a decree Fred Robinson, 25, a laborer, will be prohibited from smoking for one year. Robinson consented to take the pledge and saved himself a fine.

Toronto Union Station Opened

Toronto.—Toronto's "new" union station, which for eight years has laid idle, completed but unused because of difficulties surrounding the erection of a viaduct in connection with it, was opened to the general public, and the old station, which has served as a terminal for more than 50 years, was thrown into the discard. From now on all trains will be operated from the new station.

TWO RADICALS AGAIN GRANTED BRIEF REPRIEVE

State Prison, Charleston, Mass.—Nicola Sacco and Bartolomeo Vanzetti again have been given a new lease on life.

The radicals, condemned to execute their crime of murder committed seven years ago, in the electric chair, have been granted a reprieve to and including August 22.

This announcement was made by Prison Warden William Hendry, following receipt of formal papers which empowered him to take this action.

Many times before these two radicals, whose case has aroused international interest as one of the most remarkable murder cases in the history of jurisprudence, have been within a few hours of death. Then out of the night would come the word that the forces working day and night in their interests again had been successful in staying the upraised hand of the law poised to claim revenge for two lives snuffed out away back in April, 1920. Such was the case again. History was just repeating itself.

And this dramatic climax to one of the most amazing legal battles ever fought came after defence counsel had almost given up hope—when they were about ready to admit that "no human power" could again stave off the fatal moment.

The voice which has been heard around the world, raised in loud and continual protest against the execution of Sacco and Vanzetti, brought glad news also to Celestino Madeiros, sentenced to die with the radicals. This man, also convicted of murder, but his crime having no connection with that of the radicals, is included in the blanket respite. His name is almost unknown to the millions who raised their voices for Sacco and Vanzetti, yet he too benefited.

Epidemic In England Is Causing Anxiety

Cause Of Illness Among Children Cannot Be Determined

Bath, Eng.—An epidemic that is supposed to have resulted largely from the consumption of tainted ice cream, has affected more than 300 people, in Bath, Somerset, and the surrounding district. There is a great deal of anxiety over the outbreak, more particularly as a number of people who have not eaten the supposed infected ice cream, are ill from some mysterious cause.

The majority of those who are ill are children.

One child has died from convulsions caused by the unknown irritant.

Resents Betting Tax

National Sporting League May Have Candidate To Oppose Churchill

London.—Winston Churchill, chancellor of the exchequer, probably will be opposed by an independent Conservative candidate in the Epping division of Essex in the next general election. The National Sporting League, as a protest against the imposition of the tax on betting, threatens to bring out a candidate against Mr. Churchill, who as chancellor of the exchequer, is largely responsible for the passing of the legislation imposing the tax.

May Build More Cruisers

U.S. Plans To Construct Ten In Next Five Years

Washington.—While no official statement has been made, it is understood here that in proposing a cruiser tonnage of from 250,000 to 300,000 at Geneva the American Government figured upon a maximum of eighteen 10,000-ton cruisers for this country.

Eight such craft now have been contracted for and the other ten undoubtedly will be authorized by congress in the near future. The speed with which they are to be built probably was one of the subjects discussed by President Coolidge and Secretary Willbur at Rapid City.

Naval opinion here now is that two of these craft should be laid down each year spreading their construction over a five-year period.

Eighteen 10,000-ton cruisers would total 180,000 tons which, added to the 75,000 tons in the ten light cruisers of the Memphis type, now in commission, would give the United States a total of 225,000 tons.

Air Derby Fliers Killed

Badly Burned When Plane Burst Into Flames After Crash

San Diego, Cal.—Lieutenants Covell and R. W. Waggener, U.S. Navy, who left here in an aeroplane they had entered in the Dole flight to Honolulu, were killed when the aeroplane crashed into Point Loma, near here.

The plane was destroyed in less than 15 minutes after they had left for Oakland airport, where they intended to take off in the flight to Honolulu. The plane burst into flames after it struck Point Loma.

Covell's body was found in the cockpit of the plane and was charred beyond recognition. Identification was made from a wallet that was found in a pocket of his coat. Waggener's body was later recovered from the wreckage, and also was badly burned. Waggener is believed to have endeavored to jump clear of the plane as it fell, but was caught in the wreckage. The aviators had drawn number 13 in the race.

Attempted To Sell Dye Trust Secrets

Formulae and Contract Found In Possession Of Three Employees In Germany

Hoechst, Germany.—Three employees of the German Dye Trust are alleged by the police to have been caught in an attempt to sell the manufacturing secrets of certain products to English interests.

The police say they found the formulae hidden in the men's socks. They also claim to have found a contract fixing the purchase price of the secrets at \$90,000 marks (about \$207,000). The alleged contract also promised air passage to England, naturalization there, and steady employment, with a share of the profits. The law does not cover mere attempts of such nature, and the three men were released.

Climber and Guide Missing

Jasper Park.—F. H. Slark, experienced Alpine climber and photographer of Vancouver, and Fred. Routs, Swiss guide of Jasper, are believed to have lost their lives in the Tonquin Valley when attempting the ascent of Redoubt Peak, a section of the Rampart Range in that part of the country.

TRADE OUTLOOK IN CANADA IS VERY FAVORABLE

Calgary.—That the general industrial transportation and agricultural outlook from reports reaching him from all parts of Canada was on the whole excellent and would further improve as the market for Canadian products was widened, was the statement made here by E. W. Beatty, K.C., chairman and president of the Canadian Pacific Railway.

"An important factor in the latter condition will be a steadily increasing population," he said. "The transportation companies of course, only reflect the general conditions of the country, and compared with last year, their gross earnings are higher but increased costs beyond their control have resulted in lower net earnings. The Canadian transportation companies are not yet being paid compensation for the important public services they are, I think, performing. As to agricultural conditions, a great deal will depend on the weather that will prevail during the next ten days or two weeks. If the conditions are favorable, another substantial contribution to the country's progress will be made."

"What are your impressions of the benefits Canada will derive from the concurrent visit of Their Royal Highnesses and Prime Minister Baldwin?" Mr. Beatty was asked.

"The benefits which Canada will derive cannot help but be very great and far reaching," he said. "Canadians are always glad to see Their Royal Highnesses and to them the Prince of Wales is almost as one of themselves. The unquestioned loyalty of our people needs no confirmation but we are particularly fortunate that on the occasion of the celebration of the diamond jubilee of Confederation representatives of the reigning house of Great Britain and the Prime Minister of that country were here to participate in it. The impressive character of the jubilee celebrations have had a pronounced effect on our people, particularly on the younger generation, and the realization of what this country has done cannot but improve the morale of our people and increase the strength of our growing national sentiment."

Frustrate Conspiracy To Liberate Prisoners

Milwaukee Jailer Found Two Bars Sawed Through

Milwaukee, Wis.—What county officials said was a conspiracy to liberate 62 prisoners in the county jail was frustrated when a jailer discovered that two bars of a first floor cell had been sawed nearly through and a third bar far enough so that work could have been completed within a few minutes.

Prisoners, questioned by Sheriff Charles Schallitz, said a woman had supplied the saws, and that she was to have smuggled firearms so that prisoners might shoot their way out if necessary.

Floods Damage India's Crops

London.—Dispatches received in Bombay from the district of Gujarat, Bombay presidency, British India, and forwarded by Reuters, say floods are reported to have damaged or destroyed 50 per cent. of the cotton crop, 90 per cent. of the tobacco and a large proportion of the foodcrops of Broach. The cotton loss in the Gujarat and Kathiawar districts is estimated at 150,000 bales.

Premier Oliver Still Ill

Victoria.—The condition of Premier John Oliver, who underwent an operation some time ago, continues with little change. Since he met his supporters in the legislature some weeks ago and announced his readiness to retire, he has not visited his office in the parliament buildings. Occasionally he is able to take a short automobile drive, but is confined to his bed a great deal.

Britain's Problem

Outside of the British Isles, it is estimated that there are but 18,000,000 white people for the 13,000,000 square miles comprising the British Empire. No other empire has ever had such a problem to deal with or handled it more successfully.

Right Hon. Stanley Baldwin, Premier of Great Britain, and Rt. Hon. Wm. L. Mackenzie King, Premier of Canada.

TWO PREMIERS MEET

Grey Old Quebec Again Welcomes Prince

The Empress of Australia seen nosing her way towards Kings Wharf at Quebec. Inset—Premier Baldwin snapped leaving the Empress of Australia.

again lived up to its traditions as the historic gateway of Canada. Artillerymen lined the gun emplacements. Royal Canadian Dragoons with gilt helmets, scarlet tunics and mounted on spirited horses formed the mounted guard for the Royal visitors. Men of Courcellette, medal-bedecked presented arms to the young heir to the British throne whose own chest is decorated with the Military Cross for bravery at the Front.

In response to an address of welcome the Prince of Wales said that he himself might be regarded as a colonist. His arrival at Quebec therefore might be regarded more as a homecoming than a visit. Those near the Prince saw an eager look appear in his eyes as the Empress of Australia neared Quebec. Premier Baldwin too was glad to see the Chateau-crowned city appear in the distance. He had come a long way to see Canada and to learn the Canadian point of view he told the correspondents. This he said was his first visit to Canada for many years, the first being made in his student days 30 years ago to what was then known as 'A land of Promise'.

Quebec, grey old city of the past, which despite its busy life really remembers its past and retains the charm that has made it an unique spot on the continent. The King's Wharf where the parties landed might have been a royal pavilion at some jousting lists brought up to date. From a tiered grandstand dignitaries of the Church and State waited to extend a greeting, priests robes and the silks of the ladies adding to the color of the scene. All, with thousands of people who had gathered from all parts of the country joined in a great ovation to the Ambassador of His Majesty the King and the helmsman of the British state.

Along the terrace of the Chateau Frontenac thousands of eager faces looked over the lower town to the Royal vessel. They too voiced welcome as the royal party stepped ashore.

The Princes, Mr. Baldwin and parties after receiving a tumultuous welcome in Montreal left August 2 from the Windsor Street Canadian Pacific Station travelling in what is undoubtedly the finest train ever assembled.

Not merely How much you pay but How Much You Get

WITH New Lower Prices is now combined the most Amazing Quality in all Chevrolet history.

Chevrolet has widened the circle of automobile ownership . . . provided economical transportation to untold thousands . . . placed within reach of the average motor-car buyer a QUALITY and a LUXURY beyond all expectations.

In judging Chevrolet look not merely at what you pay, but also at what you get. Consider the smooth, fleet performance, the grace and beauty of the Fisher bodies, the ease of starting, driving and stopping, the refined yet rugged quality evident throughout Chevrolet construction.

Weigh Chevrolet quality with Chevrolet price and know why Chevrolet has achieved the most spectacular popularity of any car in the world.
